

Configuration of Windows Subsystem for Linux WSL

1. Go to **Programs and Features**, select **Turn Windows features on or off**.

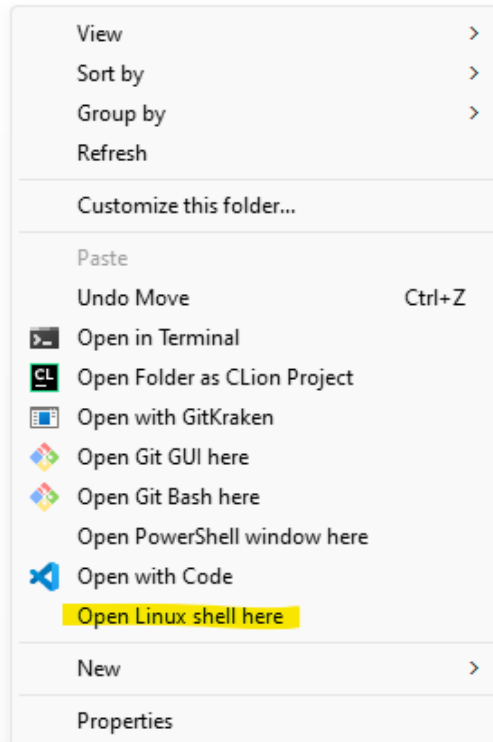

2. Restart the computer after enabling **Windows Subsystem for Linux**.

3. After restart, Go to **Windows Store** and Search for Ubuntu and install

4. Set Username and Password and your Ubuntu will be installed.

5. Open Linux Shell by pressing shift and right click of the mouse.

Windows Subsystem for Linux is now available in the Microsoft Store!
You can upgrade by running 'wsl.exe --update' or by visiting https://aka.ms/wslstorepage
Installing WSL from the Microsoft Store will give you the latest WSL updates, faster.
For more information please visit https://aka.ms/wslstoreinfo

Welcome to Ubuntu 22.04.1 LTS (GNU/Linux 5.10.16.3-microsoft-standard-WSL2 x86_64)
